Product Shown In:

Air Force Kit	X-Large, Fire Retardant	MultiCam®	AFK-XL-FCCA
Air Force Kit	Large, Fire Retardant	MultiCam®	AFK-L-FCCA
Air Force Kit	Medium, Fire Retardant	MultiCam®	AFK-M-FCCA
Air Force Kit	Small, Fire Retardant	MultiCam®	AFK-S-FCCA

Also Available In:

Air Force Kit	X-Large, Fire Retardant	Coyote	AFK-XL-FCOY
Air Force Kit	Large, Fire Retardant	Coyote	AFK-L-FCOY
Air Force Kit	Medium, Fire Retardant	Coyote	AFK-M-FCOY
Air Force Kit	Small, Fire Retardant	Coyote	AFK-S-FCOY

Eagle Industries' Air Force Kit (AFK) is comprised of a hand selected group of pouches, panels, and adapters currently utilized by US Special Operations Forces and US Air Force Aircrews. The kit is mission tailorable to allow optimization of operator performance and protection.

At the core of the kit is the Combat Integrated Armor Carrier System (CIACS™) which is designed to meet aircrew needs as a modular armor carrier vest for aviation personnel. The vest is stitched with MOLLE webbing for placement of mission-essential survival, evasion, medical, and rescue items for downed aircrew members, and incorporates a quick release system, with a single pull cable to release only the ceramic armor plates.

VEST SIZING:

The CIACS™ Vest is sized according to which armor plates it is intended to carry. The SPEAR BALCS Soft Armor sizing is as follows:

- SMALL 37" or Less Torso
- MEDIUM 37" – 41" Torso
- LARGE 41" – 45" Torso
- X-LARGE 45" and up Torso

KEY FEATURES AND BENEFITS:

- Heavy-duty, abrasion and water-resistant 1000 denier CORDURA® nylon exterior construction
- Fire Retardant
- Modular MOLLE pouch suite allows for quick reconfiguration
- Most pouches can be used in numerous roles
- Pouches, panels, and adapters are designed to accommodate Aviation Life Support Equipment currently in use
- MOLLE compatible base platforms (Rhodesian Recon vest, H Harness with Quick release belt, padded war belt, and CIACS vest) allow pouch suite to be configured for different environments or quickly reconfigured for different missions.
- NAVAIR and USAF Safe to Fly approved

AFK-A (Armor added kit) Component List:

Available in S, M, L, XL

AFK-A contains the same items in a AFK kit PLUS the following items:

Item number	Quantity	Unit
Body Armor Plates Spear Gen 2	2	PC
E-STL-BM97E-Shoulder	1	SET
E-STL-BM97E-Deltoid	1	SET
E-SBSP-BM97E-_____	1	SET

(_____ : Small, Medium, Large or Extra Large)

AFSOC AFK-A2 (Armor added kit) Component List:

Available in S, M, L, XL

NOTE: AFSOC personnel will order the AFK-A2 part numbers however the last four letters will be FCOY (FR COYOTE) instead of FCCA (FR OCP pattern) used by ACC personnel.

AFK-A2 contains the same items in a AFK kit PLUS the following items:

Item number	Quantity	Unit
E-STL-P5-Shoulder	1	SET
E-STL-P5-Deltoid	1	SET
E-SBSP-P5-_____	1	SET

(_____ : Small, Medium, Large or Extra Large)
